404 nickname He has a partner, like some kind of Spaniard, but he has been in you for a long
time since the days of ds. They have a lot of access, fat, all with Hell. C says we take accesses
with AD for 25. Without AD - for 15 in their direction. Well, maybe we'll take it for 20 if there are a lot
of them and at my request, sort of like my friend. They rested that this was not enough, they generally
offered this: they give access, take the date from us and hang up, + negotiations. We are supposedly
35 ip 65. I explained everything, I passed everything that C said, bidding, back and forth, in short, I
offered them so that since they have a surplus, we can pick it up for 20 without AD right now. Well,
maybe for 30 with AD. I say they say this and that, we have better software and a better team, let's try,
maybe the percentage is less than others, but we will surprise you with payments))) In general, what
is all this for. <Stern> well, a horse can take for 30"

data auction.I propose to open a site where 2-3 files of each non-paying company will be thrown into  
the public domain every 3 minutes, randomly. you can only pay for them. let's say 3 bucks per file. The  
cost is determined by the number of remaining files * And then through the auction system. Let's say  
- we sell to the one who makes the highest bid in the last 24-48 hours  
the work of offices - another when for a month there is an open daily leak of fresh personal and work  
data What do you think about it? } {

I found new ones from the manufacturer in the UK. They cost 2.5k pounds a piece. From the US, I need to spend three weeks in Sevastopol to this dude at best, because of the covid there are big problems with delivery. From England, if you take new ones, it's faster. And there you can take a new model 410. They will be in Sevastopol in a week." } {

2.5 million, we don't just have that kind of money at the ready to pay you. It's still very high. I have  
discussed with my management team here and the truth of the matter is that we don't need the decryptor  
but we are very interested in paying something to not have our data released. We are still just trying to  
figure out how much we can scrape together to offer. While we are doing that, my boss wanted me to  
ask you whether or not we will get access to our data that you took once we pay anything? We have  
understandably done some research and we have seen that in some cases, the data is given back to  
people once a payment has been made. We also noticed in the file tree that you sent over that some of  
the file paths look like they were from your local system. We would also like assurances that our data  
has been deleted from local systems as well"
