  "body": "Hi\nI'm watching here that new features appear, and I start to worry.
```

There is such a story that I planned to go on vacation.\nI want to have time to relax, summer is already ending for a year without rest.\nIn this regard, I want to ask you not to throw new tasks for the next 3-4 weeks on functionality. I'll try today, maximum tomorrow on the AB check, I have the data, but I need to finish the regulars.\n\nI'll upload by tax, and fix the log post, finish the cookies with Nicholas and transfer the system to support, I don't know exactly who yet , but we are discussing it.\nI'll be back from vacation and we'll calmly continue to develop the system. Now I see that

bugs are prioritized to work smoothly 3 tasks (1 from you and 2 from robin).\nI'll be back from vacation and I'll be ready to continue developing the system and features in it already.\nDo you think it's possible to limit requests for new features for now?" } {
